BIM Voyage 2023
Sailing to a Brighter Future in Digital Construction

Singapore, October 20, 2023 — The BIM Voyage event, which set sail on **October 13, 2023**, in Singapore, proved to be a resounding success, leaving participants inspired, informed, and ready to take the construction industry to new heights.

Organised by Glodon Singapore and held at the prestigious SKAI Suite at Swissotel, soaring high on the 69th level, the event brought together an eclectic mix of construction professionals, gathered to celebrate excellence, share knowledge, forge connections, and inspire innovation within the rapidly evolving field of digital construction.

Setting Sail for Success

BIM Voyage was more than just an event; it was a voyage towards success. It brought together a diverse community of construction professionals, including developers, consultants, contractors, academia, and industry associations.

Notably, the event catered to mid-management professionals who hold pivotal roles within construction organisations, influencing decisions in BIM, costing, tendering, and project management.

The event celebrated the triumphs of the construction industry, shedding light on what works and delving into the most effective aspects of 5D BIM in day-to-day operations. While honouring the achievements of the participants, BIM Voyage 2023 also stood as a beacon of inspiration for future endeavours in the construction sector.

Key Highlights of the BIM Voyage Event Thought Leadership Insights Sharing:

Distinguished speakers and experts graced the event with their vast knowledge and experiences in the field of BIM and digitalisation. They explored a wide spectrum of topics, with a primary focus on 5D BIM, from best practices to the future of construction technology.

Networking: BIM Voyage provided a platform for professionals to connect, collaborate, and forge lasting relationships, nurturing invaluable industry connections.

BIM Tech Bar: Cutting-edge advancements in construction technology took center stage at the BIM Tech Bar, where attendees could get a first-hand look at innovative products and solutions shaping the industry's landscape.

| Eugene Seah from Meinhardt Group; Into the Unknown, Let's Be Prepared

BIM Contest Award Ceremony: The event concluded with an awards ceremony, honouring the winners of the BIM Contest Singapore 2023. These accolades acknowledged their unwavering dedication, exceptional BIM skills, and profound expertise in the field.

Jovan Lim, BIM Manager at Digie Engineering Technology (CR107 Project; Main-Con: Sinohydro-Singapore Engineering JV), expressed his enthusiasm for the digital solutions he encountered at the BIM Tech Bar, stating, **"Many interesting digital solutions; my interests are sparked by the solutions I saw at the BIM Tech Bar, a lot of great potential for connecting various construction sites."**

More Than Just Success

The event was not just about showcasing success; it was about narrating a compelling story.

Exceeding Expectations: With more than a hundred guests attending from **50 different organisations**, BIM Voyage 2023 significantly exceeded our initial targets, underscoring the event's paramount importance.

Acknowledging Support: Our heartfelt gratitude goes to our special guests, the **SISV** Association and **SCAL** Association, for their unwavering support and participation.

| Opening Remarks by Mr Wong, President of SISV; Award Presentation by Raymond Chan, Productivity and Technology Co-Chair from SCAL

Global Insights: Esteemed guest speakers from various regions enriched the event with their invaluable knowledge and insights. Among them were Eugene from Meinhardt Group, Phillip from PKT Quantity Surveyors, and Gerard Heng from Sunray Woodcraft Construction.

| Phillip Tan from PKT Quantity Surveyors; Mastering BIM for QS Services-Lessons Learned

| Gerard Heng from Sunray Woodcraft Construction; To BIM Or Not To BIM

| Chern and Adrian, Representatives of the BIM Contest Winners 2023, Shared Their Experience in 5D BIM

| Austin Ng from Glodon Singapore; Embracing Digitisation-Ride it, Don't Push It

Positive Feedback: The impact of BIM Voyage 2023 was clearly evident through positive survey results and enthusiastic text messages from attendees, affirming the event's success and value.

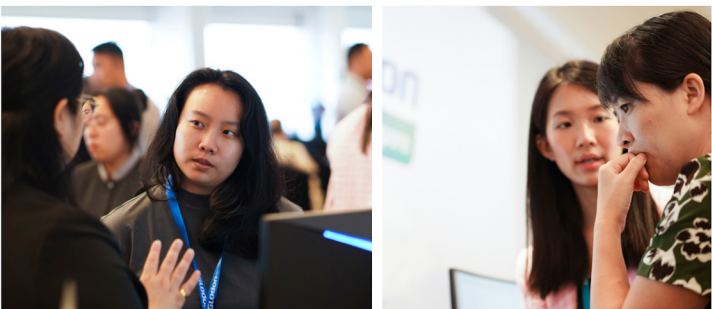

A Big Thank You

The success of the BIM Voyage event would not have been possible without the enthusiastic participation of all attendees, our esteemed guest speakers, and the unwavering support of our partners, the SISV Association and SCAL Association. We express our sincere gratitude to everyone who joined us on this remarkable journey towards advancing digital construction in Singapore.

Encouraging message from a pioneer generation QS, Ms Eileen Teo, after attending the BIM Voyage event. **"Today, many practitioners like myself as QS gathered together to appreciate the effort over the years on BIM. Many have gone beyond 3D, 4D, and 5D BIM. Some are moving towards 9D, focusing on lean construction, minimising waste."** Eileen Teo continued, **"QSs, well done! You are not only cost controllers, contract advisors, but also sharp negotiators! Thanks to the organisers Glodon Singapore, SISV, SCAL, and the inspiring speakers!"**

| Ms Eileen Teo, Singaporean QS in green
